### MEET THE EXECUTIVE PRODUCERS ... *"We've loved every minute of our journey"*

Irish twin sisters Angela and Valencia started their zest for a career in entertainment at the ages of five and six, where they started singing in church. Their love for singing continued into their teen years as the group "Bubble gum and Candy" and later "Vision of Harmony", which was birthed from their vision of seeing all people live together in Harmony. The desire to create a family friendly sitcom was a natural transition, stemming from their background as song writers and performers in the industry. Together with a cast of Talented Actors, Production teams, Camera persons and Crew, their dream is becoming a reality. **"Daddy We're Back"** is a roller-coaster of laughter, life lessons and a test of wills!
